Friends,

Saturday marks the 20th anniversary of September 11, 2001, a day that changed America forever. The events of 9/11 are still ever present in my mind, as they are yours, I'm sure. This 20th anniversary provides us the time to honor the memory of all the innocent moms and dads, sons and daughters, relatives, and friends that we lost on that day.

We must never forget the sacrifices of the unsung heroes of 9/11 or our soldiers who served overseas for the last 20 years. America still stands strong and remains a beacon of hope around the world because of these heroes. May God bless America.

Biden's Unconstitutional Vaccine Mandate

Yesterday, President Biden stooped to all new lows, rolling out an unconstitutional vaccine mandate on private businesses across the country. This big government plan also requires all federal workers to get vaccinated, with no option to get regularly tested instead. Moreover, it requires anyone doing business with the federal government to be vaccinated, as well.

TWEET: [Your freedom should be a President's top priority.](#)

It wasn't long ago that President Biden assured Americans that he had a plan to shut down the virus. He told Americans that he would not shut down the country or the economy to do so. In December 2020, Biden himself even said he wouldn't mandate a vaccine at all: ["No — I don't think it should be mandatory. I wouldn't demand it to be mandatory."](#)

But his speech yesterday broke that promise to you.

Worse yet, the President framed his new mandate as not being an attack on your liberties. "This is not about freedom or personal choice," he said. And as a divisive attack on anyone unvaccinated, the President had this to say: "We've been patient, but our patience is wearing thin and your refusal has cost all of us."

This sweeping new mandate is going to hurt businesses across the country, requiring any place of work with more than 100 employees to require vaccinations. The Biden Administration will even penalize businesses that violate this authoritarian rule with thousands of dollars' worth of fines.

Make no mistake, there is nothing constitutional about this mandate. It is the U.S. Congress that makes laws in this country, not a President with an authoritarian streak. As with President Biden's 'eviction moratorium,' this mandate simply does not hold up to any scrutiny.

It's also important to note that the Biden Administration [holds no moral authority over anyone when it comes to COVID](#). Which brings us to the other big news this week that Dr. Anthony Fauci once again has been caught lying to the American people. [A bombshell report from The Intercept](#) showed that Dr. Fauci lied under oath about the U.S. government's role in funding coronavirus research at the Wuhan Institute of Virology.

This Administration's efforts to blame COVID failures on American citizens is nothing short of disgraceful. They need to start looking in the mirror. As for President Biden's new vaccine requirements, I will do all that I can as your Congressman to ensure that his totalitarian attempt fails. Your freedoms and choices belong to you, and no one in government should be able to take that away.

Do you agree with President Biden forcing employers to
mandate vaccines or face fines?

Yes

No
